

THURSDAY MAY 20, 1940

Comments

A class of 63 Seniors will receive diplomas at Appomattox high school commencement exercises next Friday night, June 7. The following program has been announced:

Processional, Rev. L. C. Hatcher, Moderator.
Invocation, Rev. L. C. Hatcher.
Music, Mrs. J. C. Hatcher.
Prayer, Rev. L. C. Hatcher.
Reading of the Declaration of Independence.
Music, Mrs. J. C. Hatcher.
Valedictory, James Sites Jr., Recessional.

Honor Student Announced

When the class of 1940 graduates next week at the Appomattox high school, two boys will carry off honors. Professor L. C. Hatcher has announced that at a faculty meeting this morning, James Sites Jr., Gladstone had been designated valedictorian of the class and Charles Thomas Moss had been designated salutatorian. James Sites was awarded the Burke scholarship in 1938.

The following list of Seniors received honorable mention was announced by Professor C. Hatcher: George F. Langran, Jr., David Charles, Eugene Walton, Josephine Murray, Frances Hatcher, Mary Ellen Jones, and John L. Lewis.

Br'ish claim 1500 German planes lost since start of war.

EDITORIAL

BACK AND FORTH

The geography of Europe constantly changes. Border areas move back and forth from one nation to another. LEST WE IN AMERICA forget this morning, James Sites Jr., Gladstone had been designated valedictorian of the class and Charles Thomas Moss had been designated salutatorian. James Sites was awarded the Burke scholarship in 1938.

There's a lot of things going on in Europe. The following list of Seniors received honorable mention was announced by Professor C. Hatcher: George F. Langran, Jr., David Charles, Eugene Walton, Josephine Murray, Frances Hatcher, Mary Ellen Jones, and John L. Lewis.

Br'ish claim 1500 German planes lost since start of war.

WHY NOT IN PEACE?

From C. H. Hatcher Review
It is a wise to let the knowledge and experience of our industrialists in helping us meet the emergency created by a war, why could not these same industrialists be of service in helping us to meet the emergency created by a depression?

The President has told us on other occasions that fighting for recovery was a war just as armed invasion. Why don't the industrialists know something about that war?

When we are preparing for war with another nation, as we are doing now, there are those, even in administration circles, who are expressing the view that the barriers and hindrances that government has put in the way of industry must be removed so that industry can forge ahead to produce the national security. The question rises, why wasn't it important in peace-time to remove these barriers? Didn't they get in the way of national recovery, just as they now are getting in the way of national defense?

The only answer we can give is that in peace time we will give it to politics, but when there is threat of war we settle down to common sense and a spirit of helpful cooperation.

In such times as these we need a spell of FLAG WAVING!
We live in the greatest country on the face of the earth. Why not celebrate its Independence Day?

U. S. may build new type of fleet for Atlantic, consisting of smaller craft.

Chicks Are Safely and Cheaply "Mothered" by Electric Brooder

Allow at least seven square inches of floor space for each chick.
By IRA MILLER
Farm Electrification Bureau
PRACTICALLY every farm, regardless of size, has some poultry. Whether he raises little or much, or hatches his own chicks or buys them from a commercial hatchery, the general farmer as well as the poultryman must keep the baby chicks in some kind of a hove for an average of six to eight weeks.
Of course, the hen is the natural mother. But profitable farming demands more efficient brooding methods. And here is where the electric brooder comes in. It is a simple, safe, and cheap way to raise chicks. It is a simple, safe, and cheap way to raise chicks. It is a simple, safe, and cheap way to raise chicks.
